

DigesterPak™

Heavy Duty Carbon Reinforced PTFE/Graphite Packing

TYPICAL DATA

Maximum Shaft Speed:

3600 ft/min (18 m/s)

Maximum Service Temperature:

500°F (260°C)

Compatible pH Range:

0 to 14 with the exception of strong oxidizers in the 0 to 2 pH range

Applications:

For use in Chip Meter, LP Feeder, HP Feeder, Impregnation Vessel Top Separator, Pulp Distributor, Digester Top Separator and Outlet Device.

Reliable, High Performance Digester Packing

Long-Term Sealing

Superior Leakage Control

For all Digester Area Sealing Needs

Chesterton® DigesterPak™ is specifically designed for sealing tough equipment in the digester area. It combines a graphite coated PTFE braided packing with carbon reinforcement to provide outstanding resilience, superior leakage control and long term sealing. DigesterPak brings you a reliable, heavy-duty packing set for all digester area sealing on new and old equipment. DigesterPak can be combined with Chesterton's other high performance braided packing for best performance in the most demanding applications. See the Digester Application Guide, Form Number 088146 for specific configurations.
